

***Mailer Technology Advisory Council (MTAC)***  
***Meeting Report***  
***08/27/2014 12:30 PM - 1:30 PM***

**USER GROUP 4 (UG4) SESSION**

**AGENDA**

1. MTAC Debrief
  - Standard Mail (session participants)
  - First Class Mail (session participants)
  - Periodicals (session participants)
2. Any Other Business

**DISCUSSION POINTS**

The purpose of this meeting is to provide an ongoing forum to facilitate communications between the Postal Service and users, define and review improvements in process/production functionality and address and resolve issues.

**MTAC Debrief**

- Angelo presented notes from MTAC

**Standard Mail**

- 47% of Standard mail is in service measurement
- 23% of Standard Flats are in service measurement
- Lisa Bowes announced to the group that a new group is being created on exclusions.
- A bundle visibility pilot is ongoing in Baltimore, MD.
- The group was interested in learning more about the pilot and potentially creating a workgroup on bundle visibility.

**Periodicals**

- 46.26% of exclusions can be attributed to USPS and the mailer
- General concern over the lack of volume in service measurement.
- Bundle visibility pilot in Baltimore. Himesh looking for opportunity to capture barcodes.
- **ACTION ITEM:** Provide bundle visibility implementation plan

**FCM**

- Jody -- concerned over change from IMb Tracing to ALT-P for QBRM. Reliability of scans and inconsistency are a credibility problem.
- Lisa Bowes – still waiting on some action on Reply Mail Subgroup. USPS lead needs to take some action. May need to elevate this issue to MTAC leadership.
